WIRELESS CONTROL FOR DALI LUNIMAIRES

Zambelis 48V tracks are fully compatible with the CASAMBI control system, enabling seamless bidirectional communication between control devices and luminaires. This allows users to create lighting scenes, manage the system via smart devices, and personalize their lighting experience with ease.

Through CASAMBI and its wireless control options, users have total control over their installation, enjoying the same advanced features typically found in low-voltage systems.
With the 48V track system, flexibility, innovation, and cutting-edge control in architectural lighting remain uncompromised.
