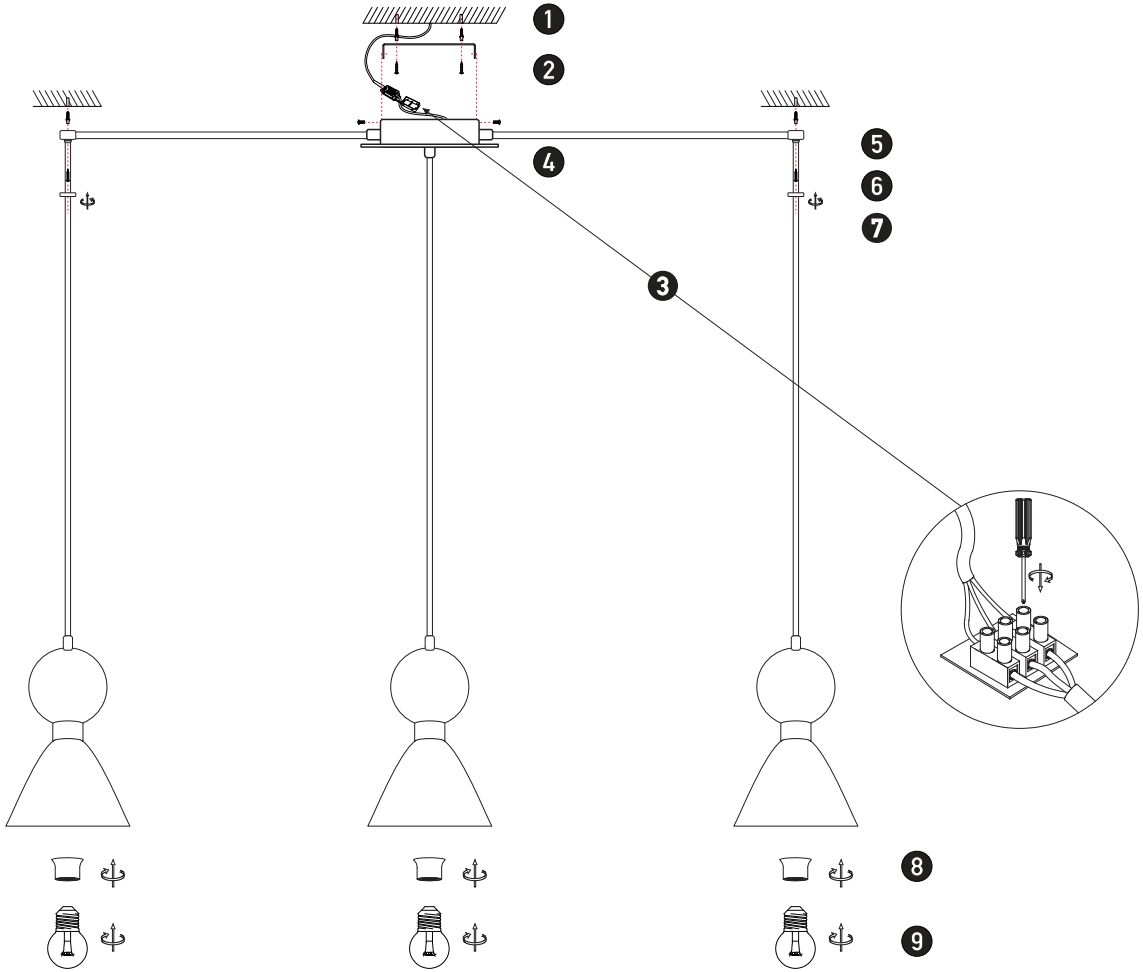
INSTALLATION INSTRUCTIONS

⚠ Electrical products can cause death, injury, or property damage. Maintenance and installation should only be carried out by a professional electrician.

- Ensure the main supply is switched off.
- Insert the main mounting anchors on the mounting surface (1).
- Fit the mounting bracket onto the mounting surface with the screws (2).
- Connect main supply wires to terminal block (3) making sure all connections are tight.
- Screw the base and fit the lighting fixture onto the mounting bracket (4).
- Adjust the hanging accessories and the cables in the position you like and insert the secondary mounting anchors on the mounting surface (5).
- Add the small mounting bases and screw them on the mounting surface (6).
- Pass the cable through the hanging accessories and secure them with the safety caps (7).
- Use the ring to secure the gypsum shade on the lamp-holder (8).
- Install E14 bulbs firmly into the lamp-holder (9).
- Reconnect power.



WARNING

⚠ Make sure that the products are installed properly before connecting to electricity.
Do not cover the luminaire.
Do not exceed the maximum wattage rating of the lamp.
If the light source is contained in this luminaire (integrated LED), it shall only be replaced by the manufacturer, his service agent, or a similarly qualified person.
