INSTALLATION INSTRUCTIONS

Electrical products can cause death, injury, or damage to property. Maintenance and installation should only be carried out by a professional electrician.

- Ensure main supply is switched off.
- Cut Out Hole 135 x 35mm and Depth 55mm required into the mounting surface.
- Connect main spot with the appropriate driver, making sure all connections are tight (LED driver 600mA included).
- Move the springs to an upright position.
- Insert the spot into the inside of the hole and return the springs to a vertical position.
- Reconnect power.

WARNING

- Make sure that the products is installed properly before connecting to electricity.
- Do not cover the fitting.
- Not for outdoor use or in wet conditions.
- Do not exceed the maximum wattage rating of the lamp.
