INSTALLATION INSTRUCTIONS

 Electrical products can cause death, injury, or property damage. Maintenance and installation should only be carried out by a professional electrician.

- Ensure the main supply is switched off.
- Install the mounting anchors on the wall (1).
- Fix the mounting plate using M4 self-tapping screws (2).
- Connect the wall light with the driver's box (3).
- Making sure the connection is tight.
- Connect the positive and negative wires, and connect the power cord (4).
- Making sure all connections are tight.
- Slide and fix with the sided screws the wall light to conceal the wiring and mounting plate (5).
- Reconnect power.
- Adjust the Light Deflectors to your preferences (6).

WARNING

 Make sure that the products are installed properly before connecting to electricity. Do not cover the luminaire. Do not exceed the maximum wattage rating of the lamp. If the light source is contained in this luminaire (integrated LED), it shall only be replaced by the manufacturer, his service agent, or a similarly qualified person.
