INSTALLATION INSTRUCTIONS

Electrical products can cause death, injury, or property damage. Maintenance and installation should only be carried out by a professional electrician.

- Ensure the main power supply is switched off.
- Complete the magnetic system according to your preferences.
- Connect the wires and power cord following the system installation manual.
- Make sure all connections are secure and tight.
- Install the Flexible LED Strip in the desired position by inserting it into the tracks (flexible LED strip adapter must be installed on a linear track).
- Cut sections of flexible LED strip are not reusable.
- Reconnect the power supply.

WARNING

Make sure that the products are installed properly before connecting to electricity. Do not cover the luminaire. Do not exceed the maximum wattage rating of the lamp. If the light source is contained in this luminaire (integrated LED), it shall only be replaced by the manufacturer, his service agent, or a similarly qualified person.
